

OUR *TEN* COMMITMENTS TOGETHER

The 1st UNI Telecom World Conference developed a clear but concise action programme for the workers in the Telecom Sector to ensure we make a real difference to the way the telecom industry is being run. This action programme is in the form of commitments between UNI Telecom and affiliate unions. These are our commitments together to ensure that we put the *structures* in place that we need, that we *communicate* between each other and that we all take *action* to implement *UNI Telecoms for the Long Run*.

What We Stand For...

Universal Services

UNI Support

* UNI Telecom commits to develop leverage actions and support affiliates with alliance building and political action on regulation, privatisation and trade issues.

Affiliate Goal
